3rd Annual
IHBA Spring Hereford Bull Sale

April 25, 2017 – 11:00 AM
Knoxville Regional Livestock Market
Knoxville, Iowa

Sale Contacts:
Marilyn Lenth, IHBA Vice-President .................. 319-269-3146
Bill Goehring, IHBA President.......................... 641-919-9365
Knoxville Regional Livestock Market............... 641-842-5555

Last Updated: 4/20/2017
Sale Information:

**Bulls will be available for viewing** prior to Sale on Tuesday morning, April 25th. Bulls will be presented in a ‘non-fit’ format.

**Sale Order** will be determined by the Knoxville Livestock Market. All Hereford bulls will sell individually, but one-following-another, before moving to another breed of bull.

**Registration certificates** for registered Herefords will be handled between Buyer and Seller. Buyers and Sellers may share contact information immediately after Sale for processing of transfers. Buyers may also use contact information provided in this catalog to contact the Seller after the Sale and request registration transfers. Unless otherwise stated, requested transfers will be completed within 30 days of Sale and at the Seller’s expense.

Unregistered Hereford bulls may also be included in this Sale, however only the Registered bulls will be included in this on-line catalog.

**EPD’s:** The EPD’s given are current as of date of cataloging. If individual EPD’s are not available, EPD’s of Sire and Dam of animal are stated.

**AHA EPD’s – Hereford Breed averages:**

**Breeding Soundness:** All bulls will have passed a semen check and breeding soundness exam prior to Sale. Standard AHA breeding guarantee shall apply. Any questions or concerns about bull’s performance after the sale shall be resolved between Buyer and Seller.

**Terms of Sale:** Cash or check unless prior arrangements are made. Clerking will be handled through Knoxville Regional Livestock Market. Each animal becomes the purchaser’s risk as soon as sold. Announcements made sale day by the owners or the auctioneer will take precedence over statements printed in any sale catalog or advertisements.

**Questions about specific Lots** – may be directed to the respective Consignors prior to the Sale. Contact information is provided to allow prospective bidders to make contact with the Sellers for any questions, if desired.

**Sale is sponsored as a service by the IHBA** – Iowa Hereford Breeders Association. IHBA is not responsible for any accidents. IHBA is not responsible for transferring of AHA Registrations, although will attempt to assist in communication of registration transfer information, if necessary.

Lot 1A  Spring 2-yr old

Homozygous Polled Bull
Calved: March 18, 2015
DNA Tested: {DLF, HYF, IEF}
Actual YW: 1,121 lbs.  Current Wt: 1,798 lbs.

Frank is a 2-year old bull that was used last year, so he already knows his ‘business’. His genomically enhanced EPD’s are super-strong across the board. Whether you’re looking for a reliable calving-ease bull, or a high-growth sire, here is a true combination bull that could do it all. A.I. Sired by the highly respected Victor 755T sire, with Puckster and Schu-Lar breeding on his Dam’s side, he’s a full genetic package for purebred or commercial herds. Trich tested & cleared.

Lot 1B  Spring Yearling

Homozygous Polled Bull
Calved: March 28, 2016
DNA Tested: {DLF, HYF, IEF}
Actual BW: 73 lbs.
Actual WW: 614 lbs.
Actual YW: 1,005 lbs.
Latest Wt: 1,166 lbs. (4/8/2017)

Here is a true ‘low birth weight’ heifer bull option with a negative BW EPD and Calving ease EPD almost off-the-charts. A.I. sired by the popular Churchill Sure Bet, with a dam sired by Sheyenne, he gets low BW from both sides of his pedigree. He still is big-bodied with good growth that can work on heifers OR cows. Take a close look at him!
Take a close look at this very good, very long bodied, yearling bull. He was calved unassisted, out of an impressive Hometown 10Y son, raised by a heavy-milking Prospector daughter. He has a super disposition, and has already passed his semen test with ‘Very Good’ classification and a very impressive 41 cm scrotal. The examining Vet said “He’s ready for a bunch of females!” Already vaccinated for Lepto-Vibrio.
**Polled Bull**

Calved: April 26, 2016

Actual BW: 93 lbs.
Adj205 WW: 790 lbs. (Oct. 22, 2016)
Pre-Yearling: 1,065 lbs. (10 mos. of age)
Yearling Scrotal: 37 cm

This young herd bull prospect is a high growth, pigmented son of Select Sires bull, REDEEM! He has a good frame and displays a lot of natural thickness. His mother is a big, fertile cow with longevity in her cow family. D65’s maternal brother headlines our breeding program and had cows bred at 13 months of age. SHANNON will be an asset to any cowman’s operation – commercial or purebred! Registered, halter broke, semen tested, built and ready to go to work! Additional details available on website: [www.wkrherefords.com](http://www.wkrherefords.com)
Lot 4A  Spring 2-yr old

Polled Bull

Calved: March 5, 2015

Here is a big, long bodied 2-year old that is ready to go to work. He is well pigmented, with red on both eyes. He was sired by the very popular Wyarno bull, and his dam traces back to the LaGrand Reload bull, so he has strength on both sides of his pedigree. This experienced bull was used as a yearling and has a couple of calves on the ground already. Contact Kent Hickman if you’re interested in seeing pictures of the calves that he has sired. He’s a herd sire that is ready for a group of females.

Lot 5A  3-yr old

**Polled Bull**

Calved: March 7, 2014  
DNA Tested: {DLF, HYF, IEF}

Tilly Bar’s second season of calves are arriving this Spring. He will look like a herd sire that has serviced cows. We have 20+ females in the herd that are direct descendants of his Grand-Dam JCB TFF TILLY 04T. Add his daughters to the list and we have a lot of females in the herd related to this bull. My daughter Molly showed him as a yearling. Anyone can handle him. Moderate frame. His pedigree and EPD’s are pretty ideal. Heifer safe.

Lot 5B  Spring 2-yr old

*OUT OF SALE*
Lot 5C  Spring 2-yr old
Polled Bull
Calved: April 13, 2015

Cappicino is a moderate frame, structurally correct, smooth polled bull that is ready and willing to breed a bunch of cows. Easy to look at. Outcross to most of the breed’s current popular bloodlines.

Lot 5D  Spring 2-yr old

OUT OF SALE

Lot 5E  Spring 2-yr old
Polled Bull
Calved: February 28, 2015

Cash was used as a clean-up bull after A.I.ing our yearling heifers last summer. He is an ideal bull to look at. He’s super clean fronted, and stout for a 4037 son. His pedigree is full of breeding programs that have advanced the breed. Holdens, Meads and Harvies. We have calves on the ground – no extremes.
Lot 6A

Spring 2-yr old

Horned Bull
Calved: May 13, 2015

Grizzly is wide made and moderate framed. He is the product of two very good herds. His dam is from Delhawk, while his sire is from Coyote Ridge Ranch. Grizzly is horned.

Lot 6B

Spring 2-yr old

Polled Bull
Calved: May 19, 2015

Drifter is a long, powerful bull that was sired by the Coyote Ridge bull, Challenge 133. He’s a 2-yr old bull that will cover a lot of cows.

EPD's:  
Actual  -2.3  +4.5  46  83  20  43  +0.39  -0.03
Lot 6C

Spring 2-yr old

Polled Bull

Calved: May 3, 2015

Cassidy is a long bodied, high growth bull that still boasts calving easing traits. His CED is a +2.0 and BW EPD is just +2.9. He would be a good versatile bull.

**Lot 7A**

3-yr old

**Polled Bull**
Calved: July 11, 2014  
DNA Tested: {DLF, HYF, IEF}  
Actual BW: 60 lbs.  
Actual WW: 630 lbs.  
Actual YW: 1,105 lbs.

Brincks Incoming is weighing in at 1,725 lbs. and is a 3-yr old mature bull. He is a well-mannered bull that is easy to work with when sorting, loading, and during chute work. He is a great bull to put on heifers or cows. His calves have averaged between 65-75 lbs., making it easy at calving time. We have kept and shown several of his daughters and sons at the County Fair. He will be trich tested prior to sale.

---

**Lot 7B**

Spring 2-yr old

**Polled Bull**
Calved: May 26, 2015  
Actual BW: 92 lbs.  
Actual WW: 920 lbs.  
Actual YW: 1,375 lbs.

Brincks Nugget is weighing in at 1,600 lbs. and is a 2-yr old mature bull. He is well mannered, and easy to work with when sorting, loading, and during chute work. He went from a 92 lb., BW, to a 920 lbs. WW, and 1,375 YW on a high grain ration. Nugget and all of his other siblings have been fast-gaining calves, which is perfect for feeder calves. He will be a great genetic addition to any herd. Will be trich tested prior to sale.
Double D Polled Herefords
Dean VanDeWiele, Kanawha, Iowa
(641) 762-3394

Lot 8A  Spring 2-yr old

Polled Bull (Scurred)
Calved: April 11, 2015
DNA Tested: {DLF, HYF, IEF}
Actual BW:  86 lbs.

Here’s a thick, dark, well-pigmented son of the top A.I. bull Victor 719T. He’s DNA tested and ready for a good group of purebred or commercial cows. He’s a herd sire ready to take home. He does have small scurs.

Lot 8B  Spring 2-yr old

Polled Bull
Calved: March 20, 2015
DNA Tested: {DLF, HYF, IEF}
Actual BW:  88 lbs.

Here’s a versatile Durango grand-son that’s very deep bodied, thick, and dark with a lot of pigment. DNA tested, he’s long bodied to sire good doing calves. Take a good look at him, he’s ready to go to work.
Lot 9A  Spring Yearling

Polled Bull
Calved: February 19, 2016
Actual BW: 73 lbs.
Actual Wt: 1,200 lbs. (4/4/2017)

Cash Bar is a deep sided, thick made bull with a low actual birthweight. He has seven EPD categories ranked in the top 15% of the breed, including calving ease, birthweight, and ribeye area. He is halter broke, very gentle and easy to handle. Both eyes are fully pigmented, he has a red neck and is almost red-to-the-ground. He should do a great job on heifers or cows. His mother is a top producing cow with a great udder that came from the highly respected Fawcett’s Elm Creek Ranch.

Lot 9B  Spring 2-yr old

Horned Bull
Calved: March 17, 2015
Actual BW: 103 lbs.
Latest Wt: 1,750 lbs. (4/3/2017)

This 2-yr old is a long bodied, deep sided bull that was born unassisted to a 3-yr old cow. He has solid growth numbers and is above breed average for carcass weight, ribeye area and leanness. His half-sister is being retained as a replacement for our herd and will be bred this spring. This big guy is very docile and easy-to-handle. He should do a great job on cows and is ready to go to work.
Lot 9C  Spring 2-yr old

Horned Bull

Calved: March 10, 2015
Actual BW: 71 lbs.
Latest Wt: 1,700 lbs. (4/3/2017)

This virgin two year old bull is dark red and moderately framed with a deep side. His actual birth weight was 71 lbs and has great calving ease numbers. He would be a great prospect for either heifers or cows. He is very gentle and has already passed his breeding soundness exam with excellent fertility and is ready to go to work.

Bull 531 is a 2-year old son sired by the popular CRR Catapult 109 bull. We sued 531 to clean up 20 cows last year and he has proven to us that it was a good decision. We have had six calves sired by him so far this spring, and the birth weight on the bull calves has averaged 75 lbs., and the heifer calves have averaged 71 lbs. These calves have been out of both registered Hereford cows and F1 baldy cows, and the birth weights have been consistent both ways. 531 is a stylish bull that is structurally sound, has solid thickness and depth, and his mother is our best uddered female.
Lot 11A  
**Spring 2-yr old**

**Polled Bull**
Calved: April 9, 2015

Actual BW: 92 lbs.
Weaning Wt: 658 lbs.
Yearling Wt: 1,066 lbs.

This is an A.I. son of RST 1030 TOPSECRET and an ET cow from SandHill Farms (Rib Eye x Governess). He brings an average birth weight and calving ease profile, but 12 of 19 superior EPD ratings in the top 20% of the breed. He would be a fine mate for black cows, capable of bringing order to the operation. He will be trich tested prior to Sale.

Lot 11B  
**Spring 2-yr old**

**Polled Bull**
Calved: April 2, 2015

Actual BW: 92 lbs.
Weaning Wt: 528 lbs.
Yearling Wt: 974 lbs.
Latest Wt: 1,585 lbs.

Here is an A.I. son of Prospector 145Y and a daughter of Revolution 4R. This moderate framed bull has 8 of 19 EPDs in the top 20% of the breed. His WW, YW and CHB measures in the top 5%, which suggests a bull well suited to those producing cattle for the feedlot. HOWETZER shoots for profit. Trich tested & cleared.
Lot 12A  
**Spring 2-yr old**

**Polled Bull**
Calved: April 1, 2015

Actual BW: 82 lbs.
Weaning Wt: 700 lbs.
Yearling Wt: 1,200 lbs.

Trust 22C is a thick, growth bull that is out of a great producing cow with a nice udder. He bred nine heifers last year and the calves are moderate in birth weight with no calving problems to date. This grandson of Trust 100W should be an asset in any herd.

Lot 12B  
**Spring 2-yr old**

**Polled Bull**
Calved: March 27, 2015

Actual BW: 84 lbs.
Weaning Wt: 690 lbs.
Yearling Wt: 1,190 lbs.

Trust 08C is a short marked grandson of Trust 100W that is out of a moderate framed young cow with a great udder. He is quiet, moves well and should be able to handle quite a few cows while putting pounds on your calves.
Lot 13A Spring 2-yr old

Polled Bull

Calved: February 12, 2015
DNA Tested: {DLF, HYF, IEF}
Actual BW: 82 lbs.

Here is a bull that excels in weaning weight numbers for any cattleman to make herd improvements, especially if you sell your calves at weaning. As an individual, he had a 107 weaning ratio and his EPD numbers prove that as he is in the top 18% of the breed for weaning weight. Genetically enhanced EPD's also indicate he is better than breed average for calving ease and top 1/3 of the breed in birth weight (actual birth weight 82#). Other production/growth & ribeye EPD's register in the top 30% of the breed.

TS Albert 73Z 52C – as a long yearling, Fall 2016
Lot 14A **Spring Yearling**

**Polled Bull**

Calved: April 5, 2016  
Actual BW: 82 lbs.

27D is a solid market bull that is thick and sound on the move. He is a low birth weight bull from a proven calving ease pedigree and has the carcass credentials to go with it. He is above breed average in almost every EPD category.
Heck Polled Herefords  
Amanda Heck, Chelsea, Iowa  
(319) 530-1721

Lot 15A  
Spring 2-yr old

Polled Bull
Calved: March 27, 2015  
Actual BW: 90 lbs.

This Bailout 2-year old is out of one of our oldest and top producing Online dams. He was a stout appearing yearling and continues to be a sound structured, easy fleshing 2-year-old.

Lot 15B  
Spring 2-yr old

Polled Bull
Calved: May 28, 2015  
Actual BW: 82 lbs.

Red eyed, dark pigmented, near 2-year old with an excellent disposition. He would be a good heifer bull with an actual birth weight of 82 lbs. His pedigree includes STAR Thunder on the dam side. He is out of a deep bodied, extra pigmented Bailout herd sire.

Lot 17A  
**Spring 2-yr old**

**Polled Bull**

Calved: January 4, 2015  
Actual BW: 91 lbs.  
Adj205 WW: 820 lbs.  
Current weight: 1,965 lbs. (4/14/17)

Outshine is sired by the only two time Supreme Champion Hereford at the National Western Stock Show – Shock & Awe. His mother is the Ramona cow who has had progeny top sales for Perks Ranch and Langford Herefords as well as being the dam of the popular Easy Money bull owned by Perks and Upstream. Outshine is awesome phenotypically, with great feet and legs. Outshine offers a lot of style and substance and will transfer that on to his progeny. We do not recommend him on heifers, but the full sisters that we have are great momma cows and you will not be disappointed with the replacements he makes you.

Lot 17B  
**Spring Yearling**

**Polled Bull**

Calved: January 8, 2016  
Actual BW: 80 lbs.  
Adj205 WW: 757 lbs.  
Current weight: 1,250 lbs. (4/14/17)

Wall Street is sired by our Hometown son from Perks Ranch. His mother was a first calf heifer who is a full sister to Outshine 3C (Lot 17A bull above). Wall Street is a sound made, moderate framed bull, who is wide based and long sided. He is a balanced calf with a load of future.

If you have any questions about either of these consignments, please contact Jon at (319) 210-4645.
