JUST MARRIED!

Haley (Greiman) & Jake Sterle

The Iowa State Fair is a special place for both the Greiman and Sterle families. The Greimans have shown both Angus and Herefords at the fair and Uncle Don Greiman was on the fair board for over 40 years. Jake and his brother Jackson showed hogs for many years and Jake's mom Jodi is the 4-H swine superintendent. Jake proposed to Haley during the 2023 fair just before they helped with 4-H swine check-in. It was a natural fit for them to say their wedding vows in front of family and friends in the Ag Building at the Iowa State Fair on September 28, 2024. It was a joyous celebration!

Haley and Jake met at Iowa State University and they currently reside in Ames. Haley is pursuing a Ph.D. in immunobiology at ISU and expects to graduate in December 2025. Jake is employed by the National Pork Producers Council as the director of industry resource development.

Wyatt & Jenna (Smith) Bailey

We got married on November 2nd at First Reformed Church in Prairie City, Iowa. The reception was held at Irishman Acres Clover Barn in Bondurant, Iowa. Wyatt's family owns and operates the wedding venue, so it was an extra special day as we were finally able to celebrate us getting married! We currently reside in Ames, but plan to start building our home this coming fall on an acreage in Maxwell, Iowa. We are both excited to get some Herefords on the land. Wyatt is working on getting his Masters degree in Entomology and Soil Science at Iowa State University. He plans to graduate Spring 2026. Jenna works for the Iowa Cattlemen's Association as the Southeast Iowa Membership Coordinator.

NEW COWHAND ARRIVAL!

AM I FULL OF CRAP?

Calf scours are not inevitable. A strong prevention program is non-negotiable. Dependable scour prevention is essential for calf welfare, employee morale and business profitability. The immune system's response to vaccination is variable and unpredictable. That's why giving preformed antibodies instead of relying on a vaccine to stimulate antibody production is so important. I'm all for removing uncertainties. So yes, I stand by this product. (And no, I'm not.)
